

**Hello, my friend, it's that time of year,
Your elf is back to bring holiday cheer!**

**From the North Pole, I've traveled so far,
Guided by snowflakes & a twinkling star.**

**I'll be here each day, spreading delight,
Playing and watching, from morning till night.**

**The joy you share & the kindness you show,
Are what make Christmas spirit glow!**

**When stars light the sky, I'll fly on my way,
To tell Santa the good you've done today.**

**So let's have fun, make memories too,
For the magic of Christmas begins with YOU!**

**Love,
Your Jolly Elf**
