

**Goodbye, my magical friends!
This year's visit has come to an end.**

**The North Pole is calling, it's ringing my bell –
It was time to fly home & bid you all farewell.**

**My merry holiday here zipped by way too fast,
But the memories we made will always last!**

**As I watched from hiding places both high & low,
Your sparkly smiles & kind hearts made this season glow.**

**So blow me a kiss as I soar through the air,
I'll carry your wishes to Santa with care.**

**Your Christmas magic made each day so bright,
It will light my way home through the starry night.**

**Merry merry Christmas & a happy New Year,
I'm sending you hugs and a whole lot of cheer!**

With love and a happy heart,

Your Elf

P.S. See you next holiday season!
